I. SCHOOL VISION, MISSION & VALUES

Vision

The school is a learning community where quality education, based on Christian beliefs and values, is offered in a joyful and stimulating setting. We believe that the foundation of this learning community is the partnership among teachers, parents and students.

General Information

The YMCA of Hong Kong Christian College (YHKCC) was established in 2003 and had its first batch of students in September 2003. It is the first secondary school that the YMCA of Hong Kong has sponsored since its establishment in 1901.

The YMCA of Hong Kong has an established record of providing all-round social and education services by means of continuing education, kindergarten education, physical and health education, employment related services, volunteers scheme, personal development and family services. Its hostel, food and beverage services, recreation programs and international linkage, offer strong support to the school.

The YMCA of Hong Kong's stated mission is to fulfil its role as a leading Christian organization dedicated to the furtherance of justice, peace, hope and truth in our local and international community by:

- Providing opportunities for personal growth and understanding of civic responsibility for our young people, members and community at large.
- Striving to ascertain social needs and effectively acting to offer services aimed at improving the quality of life of all persons, regardless of age, gender, race, culture or religion.
- Fostering international understanding and intercultural harmony.

The school, operated under the Direct Subsidy Scheme of the Education Bureau, Hong Kong SAR Government, is an English as medium of instruction school.

The school offers a school-based curriculum in Forms 1 and Form 2, an Integrated Curriculum in Forms 3 and 4, including the Hong Kong Diploma of Education (HKDSE) and the International General Certificate of Secondary Education (IGCSE), and the HKDSE and UK General Certificate of Education A-level (GCE) in Forms 5 and 6.

Special Features

- The school is situated in Tung Chung, surrounded by green mountains, overseeing the airport, and is within walking distance from the Tung Chung MTR station. The YHKCC has numerous trees and flowerbeds within the campus, making it an environmentally friendly place in which students study, make friends, grow and enjoy life.
- The school has modern and spacious facilities. For example, each classroom and special room is equipped with Apple TV and other multi-media teaching and learning facilities; there are spacious sports/learning areas basketball courts, an artificial all-weather turf, a soccer pitch, a handball court, badminton courts, a 4x100-metre track, a gym, a dance room, a wellness studio, a student learning centre where computers are equipped with internet services for students to do research and

study, an air-conditioned hall with excellent sound and lighting equipment for assemblies, performances and other activities. In 2011, the school renovated the Fine Art Centre to provide a additional and resourceful learning space for students. In 2013, the school built a two-storey Music Block with a Promenade area overlooking the sports field. Students can now have a spacious music room for their lessons, and after school instrumental lessons can also be held in smaller practice rooms. During recess and lunchtime, students have ample space in the Promenade area for their leisurely meals or rest. They can also watch ball games sitting on the benches over-looking these areas. In 2019, the school has completed a new project to turn the open roof-top basketball court into a black box theatre to further support the drama and performing art education.

- The school emphasizes enhancing language competencies and the all-round development of students. It has a rich language environment and students are immersed in English medium learning across the curriculum. About 50% of the staff are non-local, native English speaking teachers. All teachers are university graduates, many having lived in foreign countries, including Canada, US, UK, Ireland, France, New Zealand and Australia, for an extended period of time either studying or working.
- The school also has a wide variety of Extra Curricular Activities (ECAs) to choose from in a range of areas including music, art, performing arts and sports. Students are encouraged to develop their talent and potential. Students are also encouraged to participate in community service throughout their time in the school, to develop a sense of sharing and belonging to the community.
- The school provides students with a comprehensive careers programme and a variety of trips and excursions to places outside Hong Kong through international links established by the YMCA of Hong Kong so that students can develop a deeper understanding of different cultural and environmental needs in the world around them. Students engaging in these activities can also enrich their perspectives and broaden their horizons.
- As in previous years, the school organized an Enrichment Week for all students at the end of school year.
 - o Form 1 students were split into groups for Other Learning Experiences: Music, Arts, Drama and Sports (MADS).
 - o Form 2 students participated in a Discovery Camp (Spiritual Retreat Camp).
 - Students in Forms 3 and 4 participated in a Service Outreach Programme where they had an opportunity to serve those who are less privileged either in Hong Kong or abroad, including trips to China, Cambodia, Thailand, the Philppines, and Taiwan.
 - o Form 5 students participated in a Work Experience Programme which required them to find a job and work for the company for a week in order to gain real working experience and explore the future career.

In the junior forms, students enjoy small class teaching (about 20 students per group) in English, Chinese, Elementary Chinese, French, Spanish, Mathematics, Home Economics and Visual Arts.

About 70% of the students have an international background, coming from 45 countries and about 65% of the Form 1 students come from local primary schools. 28% of the students speak Chinese at home, while the rest speak English or other languages, totalling 20+ different languages spoken by the students.

Student Guidance & Discipline System

To provide a holistic view of pastoral care, guidance and discipline are integrated into a Student Guidance & Discipline System (SGDS). This ensures a happy, safe environment in which everyone can work together in a spirit of cooperation and mutual respect.

The SGDS Committee and the Student Support Team work closely to enable students to achieve their potential; they achieve this by ensuring a disciplined learning environment and by providing students with appropriate support and challenge.

More specifically, the aims of SGDS are:

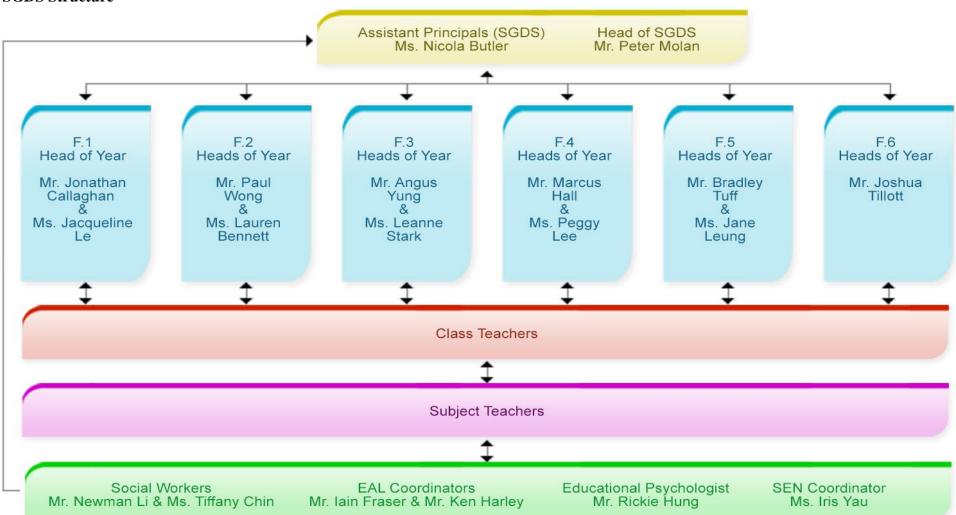

- (a) to enable students to achieve their academic potential by ensuring a disciplined environment and by providing students with appropriate support and challenge;
- (b) to provide personal, social and moral education;
- (c) to promote a caring and serving community consistent with our Christian ethos.
- (d) to support students in developing healthy self-image, self-esteem, self-discipline and high expectations of themselves;
- (e) to provide the school with a consistent approach in ensuring proper behaviour and discipline on campus in support of effective learning;
- (f) to provide guidance to students for the establishment of proper attitudes towards others, property and life in general;
- (g) to provide assistance to students in dealing with their social, emotional and learning problems as referred by themselves, their parents, class teachers or other staff, using specialist services e.g. Educational Psychologist, Social Worker, and Counsellor when appropriate;
- (h) to train students to become responsible members to society.

As far as possible we try to maintain a balance between gender and cultural background in selecting Class Teachers and Heads of Year, so that every student feels more comfortable and confident in sharing their thoughts, concerns and cultural experiences.

SGDS Structure

Personal, Social & Health Education

Personal, Social & Health Education (PSHE) is a subject through which students develop the knowledge, skills and attributes they need to keep themselves healthy and safe, and prepare for life and work in the future.

Our PSHE programme aims to develop 21st century skills and attributes such as resilience, self-esteem, risk-management, team-working and critical thinking in the context of learning grouped into three broad themes: health and wellbeing, relationships and living in the wider world (including economic wellbeing and aspects of careers education).

Every class has one dedicated PSHE lesson every two weeks. The schemes of work for the PSHE curriculum focus on topics which relate to specific age groups, and/or are differentiated to suit the needs to the different year levels. Each year the school targets areas which need further improvement, e.g. behaviour, manners, hygiene, effective relationships, mental health, managing stress, cleanliness and social awareness.

PSHE Overview

The following topics and/or areas have been introduced and discussed in different Forms, aiming at creating a harmonious learning school environment for the students and also enabling them to grow and mature for their future development.

- Social responsibility such as election of class and form representatives, student council participation and election, service in the school, citizenship, etc.
- Personal development such as setting targets for oneself, study skills building, organisational skills development, exam preparation, university and careers preparation, personal finance management, healthy living, stress managements, coping skills, mindfulness, etc.
- **Relationship and sex education** such as healthy friendship building, sex education, love and dating, consent, underage sex and legal implications, contraception, marriage and family, family responsibility, etc.
- Anti-bullying, theft and anti-drugs such as physical, mental and cyber bullying and their effects on personal and friendship development, anti-bullying, theft and crime, anti-drug and substance abuse, etc.
- **Moral and social development** such as moral and school values, social responsibilities, etc.

KELY Group Support

The school continued to boost the PSHE programme this year by utilizing the skills of a professional support group, KELY. The KELY Group provided a variety of workshops/seminars and support throughout the year on the following topics:

- Drug and Alcohol Awareness
- Bullying Prevention
- Smoking Prevention
- Relationships and Social Boundaries
- Emotional Management
- Self-Awareness
- Body Image and Healthy Lifestyle
- Social Skills & Managing Relationships
- Stress Management and Mindfulness

Themes

Throughout the year various themes focused on aspects of the school's core values. These themes were as follows:

- YHKCC Citizenship & Expectations *How to be a good moral citizen*
- Healthy Relationships *How to live a healthy and safe life*
- Personal Development *Personal improvement and striving for success*
- Healthy Living *How to make healthy life choices*
- Service & Spirit Awareness in the community and social responsibility

Focus on Mental Health and Student Wellbeing

Over the course of the year, the school offered students the opportunity to participate in the mental health screening programme 'Know My Students'. This programme was well received and offered the SGDS team valuable information on students that may require assistance and intervention.

The PASS Survey (Pupils Attitudes to School and Self), similarly provided invaluable feedback on our student's wellbeing and the effectiveness of our current practices and programs. It offered several areas of strength and weakness that can be enhanced and improved upon in the coming years.

STUDENT LEADERSHIP BODIES

There are four student bodies in the school:

- Student Council
- Prefects
- Student Ambassadors
- Houses

Each group serves a different purpose with specific areas of responsibility, including service. They serve the school with full participation from students of all forms. Students involved in these groups have a voice and acquire strong leadership skills.

Student Council

Giving young people a say in decisions that affect them can improve engagement in learning, helping develop a more inclusive school environment and improve behaviour and attendance.

Through effective participation, the school gives young people the opportunity to develop critical thinking, advocacy and influencing skills, helping every child to fulfil their potential:

- Enjoying and achieving getting the most out of their life and developing the skills for adulthood
- Making positive contributions being involved with the community and society and promoting a selfless sense of community

The Student Council adopts a cabinet system and includes the following positions: President, Vice-President (x2), Secretary, Treasurer, Activity Officer, House Officer, Promotions Officer, Publications Officer and Communication Officer. In addition, the Student Council also includes Sub-committees that consist of Class Representatives.

During the election period, cabinet parties went through a four week promotion period where they share their visions and proposals to the school. The cabinets were also engaged in a campaign debate during assembly. The whole student body was involved in the election of the Student Council for the year.

One of the major responsibilities of the Student Council was to collate student views regarding school policies and welfare. In addition, they held various whole school activities such as the Teacher-Student Fortnight and the Senior Ball. Besides, they also helped in school functions such as inter-house competitions, form 1 induction program and setting up inter-class competitions.

Communications Officer Graysi Bishwakarma (5A)

Prefects

The purpose of the Prefect Team is as follows:

- to establish students' self-discipline and a spirit of serving others
- to train up student leaders, develop students' leadership skills
- to build up students' confidence and a positive view on life
- to train up exemplary students as role models for other students
- to help maintain and develop the school's learning environment
- to facilitate communication between teachers and students

The Prefect Team consists of two Head Prefects, with a group of 6 team leaders leading 6 teams of prefects, setting good examples for the student body in terms of behaviour and service in the school, helping teachers in monitoring students in terms of uniform, proper behaviour in school. In addition, Prefects act as mentors for Form 1 students to assist them settling in the new school environment.

Teacher Advisors:

Ms. Jacqueline Le & Mr. Angus Yung

Head Prefects:

Thomas Ham (5K) Isabella Meregote (5M)

Student Ambassadors

The Student Ambassadors conduct themselves to the same high standards as Prefects; however, their duties are generally mainly on representing the school at public functions, such as Back to School Nights, International Fun Fair, Parent-Teacher Conferences, Admission Briefings and Interviews, etc. They have been avid participants in UNESCO Hong Kong's annual event – UNESCO Peacemaker's Cultural Celebration. Since the

previous years of participation in such a meaningful event, the Student Ambassadors decided to share this experience with the entire school by organizing a 'Mini-UNESCO', which took place during 2 lunch times, inviting the whole school to participate.

Student Ambassadors were chosen by the Teacher Advisor for the Team and this year, there were almost 80 Student Ambassadors from all Forms.

Teacher Advisor:

Ms. Kit Ng

President & Vice Presidents:

President Anjanelle Madrid (5C)
Vice Presidents Tanya Asnani (4Y)
Sahibjit Singh (4A)

Houses

The House system provides an opportunity for students and teachers to communicate with each other. Students take the opportunity to learn team spirit, share their experience and knowledge with others, and develop the sense of belonging to our school.

The four Houses are Chambers, Morrison, Taylor and Williams. Each House is made up of teachers and students from different forms and classes. All students in the school are assigned to different Houses and are encouraged to participate in activities and competitions for their House.

Each House has its House Advisor (teacher), Assistant House Advisor (teacher) and a House Committee (students) includes one House Captain, two Assistant House Captains, and 10 - 12 other committee members.

Throughout the academic year, various Inter-House Competitions were held. At the end of the year the final standings were as follows:

V. <u>CURRICULUM</u>

The school uses the local curriculum for most subjects, as set by the Education Bureau (EDB) in Hong Kong, leading to the Hong Kong Diploma of Secondary Education (HKDSE).

To cater for the diverse nature of students' abilities and backgrounds, the school offers French, Spanish and Elementary Chinese to some students, which leads to the International General Certificate of Secondary Education (IGCSE) qualification.

Integrated Curriculum

The school offers an Integrated Curriculum in Form 3, which integrates the content of the local HKDSE curriculum with IGCSE syllabuses. Students study 5 core subjects: Language (Chinese Language *or* IGCSE Mandarin *or* French *or* Spanish), English Language, Mathematics, Liberal Studies and Religious Studies). Students also select 4 Elective Subjects from a choice of 13 subjects.

During Form 3 students are required to apply to study in either the Hong Kong Stream or the International Stream in Forms 4-6.

The following curriculum structure was introduced in the 2016 - 2017 school year and fully implemented in the 2017 - 2018 school year to provide the opportunity for students to study a wider range of subjects in Form 3.

Form 1	Form 2	Form 3	Form 4	Form 5	Form 6	
School	School Based		Integrated Curriculum		HKDSE	
Curriculum		HKDSE + IGCSE		GCE 'A' Level		

The integrated curriculum provides a solid foundation for both the HKDSE and IGCSE curricula, and this structural change ensures a smoother progression and better preparation for students studying the HKDSE curriculum in Forms 4-6.

Hong Kong Stream

Students in the Hong Kong Stream sit for the Hong Kong Diploma of Secondary Education (HKDSE) examination at the end of Form 6. Students apply for local university places through the JUPAS system. An increasing number of students in the Hong Kong Stream are applying and being admitted to universities overseas.

International Stream

All students in the International Stream sit for their IGCSE examinations at the end of Form 4.

Students satisfying the entrance requirement (i.e. at least 5 IGCSE passes at grade C or better) then start their General Certificate of Education Advanced Level (GCE A-level) studies in Form 5 and sit for the examination at the end of Form 6. Students apply for local university places through non-JUPAS.

The number of students in the International Stream is capped at 80 and at least 51% of the total number of students in the year group are in the Hong Kong Stream, as per EDB requirements.

The table below shows the subjects offered in different forms and in different streams.

^{*} Non-Public Examination Subject

Learning Support Room

In order to support students in completing homework assignments, the school continued to provide a Learning Support Room.

Students experiencing difficulties with their homework are asked to go to a designated room after school where they can receive assistance from their subject teachers. This measure was quite successful in ensuring that homework assignments are submitted on time and also enabled teachers to more effectively monitor learning progress.

Post-IGCSE Examination GCE A-level Foundation Course

The school continued to have an earlier start for students in the International Stream. When the IGCSE examinations finished at the end May, Form 4 students were grouped into GCE classes and started a five week GCE A-level Foundation Course designed to laid the groundwork for success in their academic studies in Forms 5 and 6. Teachers prepared special materials to cover the foundations for subjects in the International Stream.

VI. <u>TEACHERS</u>

The school employed 87 teachers and 7 teaching assistants.

Qualifications

All teachers are degree holders: 84 have a PGDE (or equivalent) qualification and 37 have master's degrees. About 40% of teachers and teaching assistants are employed from overseas.

Staff Development

Supported by effective leadership, effective schools provide ongoing learning opportunities for teachers to build on what they already know about effective learning and teaching, and further develop the skills, knowledge and dispositions necessary to teach to higher professional standards.

Teacher quality is at the very centre of learning. If we are to realize continuous improvement in the quality of teaching and learning in our classrooms, we must build the capacity of teachers to meet these expectations. This requires the allocation of sufficient resources for an effective Staff Development Programme as well as an understanding of what teachers must know and do to improve student learning. Most importantly, we need a model of learning that provides teachers with an opportunity to engage in the improvement of their practice over time. The aims of the Staff Development Programme for the 2018 – 2019 school year were as follows:

- To raise literacy levels in teaching and learning
- To help teachers become familiar and competent with the use of SEQTA (Learning Management System)
- To implement a rigorous Early Professional Years (EPY) development programme
- To build a culture of student-centered learning

A. <u>Hotspots</u>

Each Thursday morning a member of staff delivered a *Hotspot*; a short focused sharing of a specific teaching and learning strategy, tool or pedagogical idea. During the 2018 – 2019 academic year, Hotspots focused on the specific targeted areas of the Staff Development Objectives: literacy, IT to enhance learning effectiveness, SGDS and department development. Findings of a post-programme survey show that 63% of teachers feel that the Hotspot sharing has impacted on their teaching and feedback towards this initiative has been positive.

B. Learning Communities

Effective schools are learning communities, the core element of which is a culture of collaboration and collective responsibility for the development of effective teaching practices and improved student achievement.

This year we created ten Learning Community groups which worked together closely over the course of the year to develop a focus area of teaching and learning. The purpose of the learning community is to provide deliberate, purposeful and structured opportunities for professional growth within a supportive, small-group context.

Each learning community investigated and develop a specific area of teaching and learning. These areas have been requested by the staff and look to cater for a range of professional needs identified in the Teacher Development Plan 2017 – 2018, and end of year survey. They are personalized and therefore more relevant learning experiences for staff. The primary aim is to facilitate research, change and development.

<u>2018 – 2019 Learning Communities</u>

- 1) **Literacy strategies for the classroom** equipping every subject teacher with simple and effective tools to improve the literacy of our students.
- 2) **Building a reading culture** raising standards by making reading a visible and meaningful part of the school community.
- 3) **IT to enhance student-centered learning** to develop an opportunity for *IT-based student-centered learning*.
- 4) Where can SEQTA take us? exploring the potential of SEQTA's capabilities into personalized student learning.
- 5) **Flipped classroom** to reverse the traditional learning environment by delivering instructional content, often online, outside of the classroom.
- 6) **Diagnostic Questioning** identifying and understanding students' mistakes and misconceptions in an efficient and accurate way.
- 7) **How to develop intrinsic values within our students** creating authentic learning experiences which nurture the five-core values in our students.
- 8) **Designing purposeful homework** creating homework with meaning and purpose.
- 9) **Visual, Auditory and Kinesthetic (VAK) learning** catering and encouraging different learning styles within the classroom.
- 10) Planning for meaningful learning through an integrated curriculum establishing cross-curricular links for a holistic 21st Century learning experience.

The Learning Communities ended the year by sharing their research, implementation and suggested strategies in a whole staff presentation session.

C. IT Training

The IT training offered has been in response to the requests from teachers. After a survey was conducted it was clear that areas that staff desired to improve were: use and competence of their MacBook, preparation for the new LMS system SEQTA & any websites/applications for everyday teaching and learning. As a result, the following training sessions were offered to staff, along with monthly IT Hotspots. The Hotspots were mainly a selection of applications and websites that can be used within lessons to enhance teaching and learning. On top of this, some were more organizational or

practical teaching aids.

D. <u>Pineapple Chart</u>

The Pineapple Chart which is displayed in the Staff Common Room has created an opportunity for teachers to invite peers into their classroom for informal observation and to share good practice. During the 2018-2019 academic year, 74 lessons were shared on the Pineapple Chart.

E. <u>Early Professional Years Programme (EPY)</u>

The Early Professional Years programme has been designed for the context of YHKCC to support teaching graduates in their early professional years. The programme had two specific themes: Teaching and Learning and Student Support. The EPY sessions were non-judgmental and complimented existing departmental mentorship. Meetings were led by the Heads of Staff Development with one session scheduled during times when the whole-school met for assembly. The content of the meetings for the 2018-2019 academic year is shown in the table below.

F. LITERACY

This year, working together to raise the literacy levels of our students was consistently recognised and promoted as a whole school priority for the YMCA of Hong Kong Christian College. In addition to this, the promotion of reading for pleasure through the creation of a positive and school-wide reading culture was recognised as being essential to the holistic development of literacy levels.

Two separate learning communities were given a literacy specific focus area and tasked with researching, changing and developing the way both language and reading skills are developed across the school. One focused on implementing literacy strategies into lessons and in the classroom, while the other explored whole-school and extra-curricular initiatives for building a reading culture both in and out of the classroom. Both communities operated with the understanding that improving literacy should be achievable as a target for all teachers, regardless of their subject or department.

In order to ensure that teachers from all different departments and of all different forms were able to discharge their responsibilities as teachers of English and literacy, monthly workshops offering practical classroom strategies and supportive and innovative ways to improve reading, writing, speaking and listening skills were offered to all members of staff. These workshops aimed to provide teachers with an approach that should have a high impact on students but requires low effort in terms of planning and implementation. Workshops ranged from refreshing teacher's knowledge of common grammar errors and how to correct them, to how to explicitly teach students to use academic language, to different ways of using graphic organizers to structure writing.

In response to these workshops, teachers from different departments have trialled, adapted and implemented a range of literacy initiatives in their lessons.

G. Whole School Professional Development

The following INSET sessions were set aside for whole school professional development:

港青基信書院

Date	Time	Content
31st August, 2018	Afternoon	SEQTA & Literacy
3 rd September, 2018	Afternoon	SEQTA & Literacy
24 th September, 2018	Whole day	Team Building
10 th May, 2019	Whole day	Learning Community Presentations, SEQTA Implementation and Apple Teacher Certificate.

In addition, six one-and-a-half-hour staff development sessions were scheduled over the course of the year for the learning communities:

Learning	Communities	
Session	Date	Content
1	26 th September, 2018	SWOT Analysis
2	14 th November, 2018	Pedagogical Research
3	12 th December, 2018	Collaborative Planning
4	30 th January, 2019	Feedback and Sharing of Good Practice
5	20 th March, 2019	Planning to move forward
6	17 th April, 2019	Finalization of whole staff presentation

The sharing of good practice in Department Meetings, General Staff Meetings and through other channels was coordinated by the Academic Committee and the Innovative Teaching Committee. All teachers were actively encouraged to contribute.

H. Academic Professional Development

Continuing professional development to address particular subject-specific needs was incorporated into each of the departmental meetings scheduled for the 2018-2019 academic year.

Collaborative lesson planning and peer observation was delivered through departments, at least once per semester, based on but not limited to the models described in the School Policy & Procedure Manual. Some time was also allocated during department meetings for teachers to work on specific parts of the Teacher Development Plan, e.g. collaborative lesson planning and peer observation feedback. Heads of Department published a Departmental Professional Development Plan for the year.

I. <u>Personal Professional Development</u>

All teachers were encouraged to attend external seminars and courses throughout the academic year.

Peer Observation

Peer observation is an important part of personal professional development. In addition to informally observing other department members at least once per semester, all teachers observed colleagues within their learning community on three occasions during the academic year. The specific foci for the lesson observation (based on areas for development previously identified) were discussed beforehand.

Teachers were encouraged to informally observe each other as much as possible, both within department groups and across departments.

Lesson Observations

Heads of Department observed every department member at least once per semester for staff development purposes and gave feedback generally as well as on particular targets identified in the Teacher Development Plan.

All teachers were observed at least once a year by the Principal or Deputy Principal (Local/International Curriculum) for staff development purposes. Feedback was given.

Before each lesson observation teachers were asked to identify specific foci for the observer. The foci, a lesson plan (using the department template) and any lesson materials were given to the observer at least one day before the lesson observation.

Learning Walks

The Leadership Team and Heads of Departments conducted a series of 'learning walks' this year, which involved collaboratively observing specific teaching strategies in the classroom.

Mentoring

Heads of Department provided mentoring within departments as necessary.

Teacher Development Plan

A key element of the personal professional development programme was the Teacher Development Plan. At the beginning of the academic year, teachers were asked to identify specific targets for professional growth linked to the major concerns of the school and areas for personal development. These targets were discussed with a team leader or 'mentor' in meetings at the beginning of the cycle and at the end of the cycle.

The role of the mentor was as follows:

- to assist the teacher in devising appropriate targets and strategies;
- to review and discuss progress towards achieving the goals;
- to provide guidance on areas for future development.

There were three key deadlines in the Teacher Development Plan.

Stage 1: Planning

Teachers started by setting personal goals for professional development. Mentors then made arrangements to meet with each teacher to discuss the targets and help develop appropriate strategies.

Stage 2: Implementation

Teachers met with their mentors to reflect on the collaborative lesson planning process, feedback from any lesson observations, subject-specific staff development and feedback from students during the first semester.

Stage 3: Evaluation

Mentors made arrangements to meet with each teacher to discuss the End of Cycle Evaluation and identify key areas for personal improvement and future development. Suggestions for whole school or departmental staff development for the following academic year were also be included in the Annual Review.

Immediately following the meeting with the mentor, teachers completed the Annual Review of the Teacher Development Plan.

The data was used by the Staff Development Committee to inform the Staff Development Plan for the next academic year.

C. Report on Use of Grants

Capacity Enhancement Grant

In order to support the personal growth of students and provide professional services to students and parents, our School has continuously utilized the Capacity Enhancement Grant (CEG) to employ an Educational Psychologist in 2018/2019 school year. The CEG was also effectively used to support sports development in the YHKCC through the employment of swimming coaches. Part of the CEG was also used for hiring part-time staff to support clerical work.

Pastoral Care

Part-time Educational Psychologist

Administrative Support

Part-time clerical support

Swimming Coach

Coaching service during the swimming lessons

The CEG has provided the YHKCC additional resources to further enhance the professional pastoral service to students, parents and teachers. With the support of the Educational Psychologist, the Student Guidance and Discipline System (SGDS) was able to provide an all-round pastoral care support to students.

Resources were also deployed to employ a part-time proof-reader to reduce the administrative work of teachers as well as clerical staff. Part of the CEG was used to employ swimming coaches to provide professional swimming training to our students.

XI. REVIEW OF ANNUAL SCHOOL PLAN 2018 – 2019

The major concerns for the 2018 - 2019 school year were as follows:

- 1. To raise academic achievement by further enhancing teaching and learning effectiveness.
- 2. To foster an environment in which students are encouraged to embed the 21st century skills (in the YHKCC Learner Profile) into their daily lives.
- 3. To continue to streamline and refine administrative procedures by utilizing IT systems.

The progress made during the year towards achieving these major concerns is shown in the table below.

XII. DEVELOPMENT FOR 2019 – 2020

Following a review and evaluation of the Annual School Plan at the end of each academic year, the Leadership Team of the school identifies specific areas (major concerns) for future improvement and development. Teaching staff are consulted and the proposed major concerns are modified as necessary and published. The Leadership Team then devises a range of specific targets (with associated strategies, success criteria and evaluation methods) to achieve each of the major concerns within a given time frame

The major concerns for the Annual School Plan for the 2019 – 2020 school year are as follows:

- 1. To raise academic achievement by further enhancing teaching quality and developing independent, responsible and ambitious learners.
- 2. To continue to integrate the core values and intellectual character dispositions into building students who are 21st century ready.
- 3. To further streamline administrative systems and enhance communication channels through the new online learning platform.

The Annual School Plan is based on the current School Development Plan (2017 – 2020).

- 1. To further enhance teaching and learning effectiveness
- 2. To provide an education which is 21st century relevant
- 3. To align and refine the organizational culture
